Senior Project
AwareCity 5th bi-weekly report:

Prior accomplishments

- The "visit" button works on the charity page, so now when clicked it takes the user to each of the organization's websites.
- Created a website to display our overall application progress and individual contributions.

Goal for upcoming two weeks

- Add a demo of our application on our website
- Finish adding the bi-weekly reports on our website
- Finish adding locations on the map screen
- Work on the final presentation
- Complete final project report
- Print a few copies of the project report for presentation day

Challenges encountered throughout:

- Completing the filtering options for the map screen
- Ability to filter using switches
- Filtering both the markers and the carousel simultaneously
